SKILLS

- *Languages:* JavaScript, TypeScript, Python, Java, SQL, C
- *Frontend:* React, React Native, Vue, HTML5, CSS3
- *Backend & Databases:* Node.js, Express.js, PHP, Firebase, MongoDB, MySQL, RESTful API design
- *Tools & Testing:* Git, Jest, Linux, Docker, Android Studio, Figma

WORK EXPERIENCE

Ball State University

Muncie, Indiana

Full Stack Developer Intern

May 2025 – August 2025

- Built a mobile football prediction app in a 4-person agile team using React Native, TypeScript, and Firebase.
- Designed Firebase Cloud Functions to handle real-time game state sync, scoring updates, and user predictions.
- Optimized real-time data flow to support 100+ concurrent users per game with sub-second update latency.
- Collaborated with clients through sprint reviews and conducted live testing with 90+ users during active games.

Geek Squad

Muncie, Indiana

Consultation Agent

October 2024 – Present

- Diagnosed and resolved software and system issues across Windows, macOS, and mobile platforms.
- Analyzed system logs and recurring issues to improve resolution time and reliability.
- Communicated technical solutions clearly to non-technical users.

PROJECTS

ShelfIQ: Food Inventory Management System

Creator

- Developed a full-stack food inventory management platform using React, Node.js, Express.js, and MongoDB, enabling real-time tracking and management of food stock levels.
- Designed and implemented RESTful APIs with Mongoose for data modeling and MongoDB for persistent storage.
- Built reusable React components with Hooks and React Router, reducing code duplication while supporting distinct admin and customer workflows.

VibeFinder: Genre-Based Music Discovery Platform

Creator

- Developed a Java Swing desktop application integrating the Spotify API to deliver genre-based music recommendations and artist discovery.
- Implemented genre-based artist and track discovery with randomized selection logic.
- Enabled users to seamlessly create and manage playlists by integrating a robust interface for adding and organizing songs.

EDUCATION

Ball State University

Muncie, Indiana

Bachelor of Science in Computer Science

August 2022 – May 2026

Minor: Business Information Technology

- Dean's List (2023 – 2026)
